

20 July 2024

INTERNSHIP CERTIFICATE

This is to certify that Krshay Venkatesan of KC High School, Chennai completed a 2 weeks internship and immersion program in our organisation in July 2024. The internship was in our factory premises in Thiruporur, Chennai.

During his tenure with us, he was exposed to all processes engaged in manufacturing of shock absorbers, suspension assemblies and air suspension systems for Light Commercial Vehicles including products like coolant pumps and steering systems. He was given a thorough walk through on the process work flows and business functions involved from quote to cash in the organisation.

Krshay was an eager, diligent and engaged learner. He showed interest in working hands on in several areas and sought clarifications to his understanding without hesitation. He was quick to grasp both operational and technical concepts on the shop floor. He expressed interest to work as a Research Intern with the company's Research & Development Team in the near future.

It was a pleasure to have Krshay as an intern and we look forward to mentoring him for his research interests. We wish him the very best.
